LIVE
DEMO

Carlo Gavazzi

Machine Components, Machine Control, Sensors & Vision

View our comprehensive portfolio of automation products comprised of some of the most innovatively designed and manufactured solid state relays, soft starters, sensors and energy meters - all of which are available from our worldwide sales and distribution network. Don't miss our exclusive PACK EXPO Connects discounts!

Featured Products Include: Industrial Automation Controls, Sensors, Solid State Relays, Contactors, MCBs and HMI's

Conveyor & Automation
TECHNOLOGIES, INC.

Conveyors and Automation Technology

Robotic Palletizers and Material Handling Integration

See how our revolutionary end-of-line solutions drive productivity in high-demand environments. Don't miss our demo, "5 Robotics Trends in End of Line."

Featured Products Include: Flexible automation equipment, robotics, controls, tabletop/mattop conveyors, palletizers

Maple Systems

HMI's, Operator Interface Terminals, Industrial Touchscreen Panel PCs

Maple Systems offers the best value HMI's in the industry: HMI, HMI + PLC, Industrial Panel PC, and more. We supply high-quality, affordable control solutions for industrial and OEM applications. UL Listed, Class I, Division 2 models, and FREE technical support. Join us for "Top Must-Knows for OEMs When Choosing an HMI" followed by live Q&A.

Featured Products Include: Touchscreen HMI's, HMI + PLC, Industrial Panel PC, Text-Based Operator Interface Terminals

Piab USA Inc

Pumps, Conveyors & Suction Cups

Piab designs innovative vacuum solutions that improve the energy-efficiency, productivity, and working environments of vacuum users around the world. A reliable partner to many manufacturers, Piab handles anything that has to be lifted, moved or gripped.

Featured Products Include: Vacuum pumps, suction cups, robotic grippers, vacuum conveyors, vacuum lifting systems.

ProAdjust

Automated Adjustment

ProAdjust is a revolutionary system that automates manual changeover systems by moving changeover parts to exact positions, ensuring precise adjustments in less time, every time. It is easy to integrate into nearly any existing machine or conveyor system. Be sure to talk live with our technical team! We'll have engineers on standby to answer OEMs' questions about their particular machine and applications.

Featured Products Include: Automated machines adjustment system that allows manual changeovers and setups for machines.

SEW-Eurodrive

Drive Engineering

For over 81 years SEW-Eurodrive has been providing the highest quality products and solutions for the drive industry. Our modular product system allows for customized solutions without the "custom" price tag. Our goal is simple - keep our customers moving. Don't miss our demo: "Tips for Maximizing Gearmotor Speed Range" and see machines featuring our products at XYZ Company (PE.show/123).

Featured Products Include: Gearmotors, Frequency Inverters, Servos, Decentralized Drive Systems, Industrial Gears
